Re: Proponent for SB 259

Mister Chairman, members of the committee, for the record my name is Josh Egan.

I have taken the OSHA 10 safety class at my high school which is Helena High School. I have taken this class my sophomore year as part of my Welding II class. I am now a senior in Welding IV and because of this I know that I have a better understanding of what OSHA is and all the safety for my future jobs. I also know that I can apply for jobs that require OSHA 10 card and I already have the card so I have an up on other applicants.

OSHA 10 class is a program that all students should have the opportunity to participate in. By supporting Senate Bill 259 it will allow students of opportunity to learn the safe working sites and hold an OSHA 10 card which will help them with employment opportunities.

Thank you for your time.
